EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raja Saliba on 5/5/2010.

The application has been amended as follows:

Claims 3, 17, and 18 have been cancelled.

In claim 1, line 10, "in an axial section" has been deleted and --in an axial section so as to be concave with respect to the inside of the metering chamber and-- has been inserted.

Claim 2, has been deleted and rewritten as follows:

--2. A metering valve according to claim 1, wherein the curved portion located axially between the top orifice and the circularly-cylindrical wall is a top wall portion that connects the top orifice to the circularly-cylindrical wall, and wherein the curved portion located axially between the bottom orifice and the circularly-cylindrical wall is a bottom wall portion that connects the bottom orifice to the circularly-cylindrical wall.--.

In claim 11, line 2, "covering" has been deleted and --cover-- has been inserted.

Claim 16 has been deleted and rewritten as follows:

--16. The metering valve according to claim 13, wherein the top curved portion connects the top orifice to the cylindrical wall portion and the bottom curved portion connects the bottom orifice to the cylindrical wall portion.--.

2. The following is an examiner's statement of reasons for allowance: the primary reason for allowance of claims 1 and 13 is the inclusion of the limitation requiring the curved portions to be rounded "so as to be concave with respect to the inside of the metering chamber" in combination with the other claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
